

- Launched in Jan 22, with 4 modules: Introduction to Python Programming, Data Structures, Computer Networks, Machine Learning
 - Total of about 175 teachers in different modules
 - Top experts from across the country teaching them
- Feedback from delegates taken in March – summary of feedback given:

Feedback- on Usefulness of modules

1. How useful will the lecture/lab session be in improving your teaching:

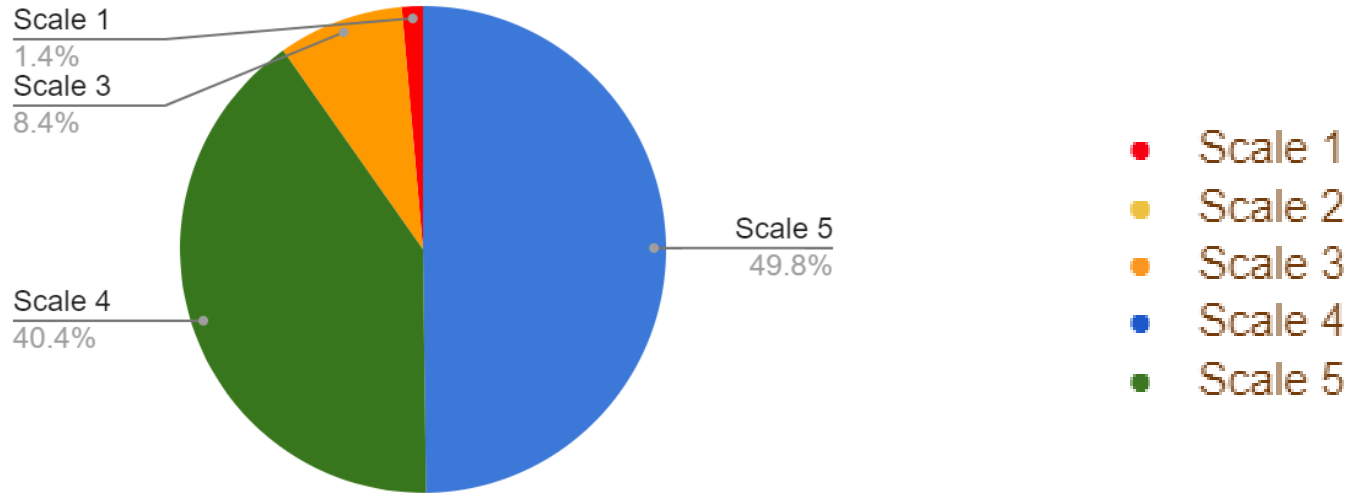

2. Overall how useful will these modules be for improving your teaching:

Feedback- on Future modules

3. How strongly would you recommend to colleagues to take an effective teaching of XYZ module he/she teaches:

4. Would you like to attend similar modules on other subjects you teach:

Comments	Suggestions
<ul style="list-style-type: none">● Really helpful to teach our students in a better way.● We received the recording of the sessions, which is really appreciable. If someone cannot attend at the moment for any reason, they can watch it later.● Overall, The course and the contents/materials are good.● Excellent hands-on session.● Both lectures and tutorials session are outstanding. Specially TAs are making a lot of effort to clear all doubts	<ul style="list-style-type: none">● Please provide enough time to solve the assignments.● It's better to keep sessions during the working hours (even if it's on Saturdays)● More frequent lectures would be helpful.● Can provide assignments instead of quizzes.● Can discuss a variety of small problems to create interest in students
